

# End plugs

Simple end plugs for temporary sealing of micro ducts.

For use on ducts from 4mm up to 20mm.

Providing optimal protection againstst ingress of water and sand.

## Rasgos

- Dirt and splash water tight
- Tapered to fit a variety of duct diameters
- Compressible for better sealing of both smooth and ribbed inner wall of the duct

## Especificaciones

- Material EPDM or silicone rubber
- Temperature range -20°C up to + 60°C
- Excellent Chemical and Hydrocarbon Resistance

## Productos

| Art.nr. | Product Naam              | Color        | Diámetro interior d (mm) | Longitud | Diámetro exterior D (mm) | Unidad de embalaje |
|---------|---------------------------|--------------|--------------------------|----------|--------------------------|--------------------|
